

WHAT IS CLAIMED IS:

COPY

1. A method to produce one or more cDNA molecules
comprising:

- 5 (a) contacting a sample comprising one or more mRNA
templates with a solid support; and
(b) contacting said templates with one or more reverse
transcriptases under conditions sufficient to synthesize one or more
cDNA molecules complementary to all or a portion of said templates.
2. The method of claim 1, wherein said cDNA is a cDNA library.
- 10 3. The method of claim 1, wherein said mRNA is removed from
said support prior to said cDNA synthesis.
4. The method of claim 1, wherein said cDNA is double-stranded.
5. The method of claim 1, further comprising amplifying said
cDNA.
- 15 6. A method for storing an RNA molecule, comprising:
(a) contacting a cell comprising an RNA molecule to be
stored with a solid support; and
(b) drying the cell and the solid support.
7. The method of claim 6, wherein the solid support is FTA®
20 paper.
